

Assessing Performance

Worksheet

Use the space in the boxes below to write down your responses to the questions

Do you routinely conduct assessments of function / performance in your practice? List them all.

Choose a test from your list above. Can you list the factors that might influence the accuracy of the test?. Try separate these into factors coming from **human sources (including tester and participant) and those coming from **technical sources** (the instrument being used & protocol)**

Assessing Performance

Worksheet

Calculate the coefficient of variation associated with one or more of your in-clinic assessments of function or performance. Use the resource sheet and spreadsheet provided. What were your findings? What are your thoughts?
